A MESSAGE FROM

Ellen

September is here, and there's plenty happening at Stronger Together Foundation as we head towards the school holidays and a busy final few months of the year.

Our school holiday programs are now at full capacity, which is wonderful to see. We're also returning to Inflatable World Dural for another exclusive Stronger Together family event these holidays. These events provide a welcoming and understanding environment where children and families can relax, connect and enjoy the experience together, so make sure you book your tickets.

Our 2026 Ladies Night, is also getting closer, and we're delighted to welcome [Temple Skincare & Day Spa](#) as our third Community Sponsor, joining [Fusion Careers](#) and [McCall](#). We're incredibly grateful for their support. The event has now reached **50% capacity**, so if you're planning to join us at Entrata on 22 October, don't wait too long to gather your friends and book your tickets.

We have two professional development workshops coming up, beginning with **Understanding Gestalt Language Development**, presented by our very own speech pathologist Emma Kokorogiannis, tomorrow. It's not too late to join us for this practical online session for parents, educators and allied health professionals.

We have an update on **Thriving Kids**, including what is changing, what is staying the same for now and what families can expect next as further details become available.

As always, thank you for being part of the Stronger Together community. Your involvement, whether through our programs, events, workshops, fundraising or simply sharing our work, helps us continue creating meaningful opportunities for local children and families.

Thriving Kids

What Families Need to Know

More information is now available about how Thriving Kids will roll out in NSW and what the new early intervention program may mean for children and families. We've put together an overview of what we know so far, what's still to come and what families need to know right now.
